Masking Tape

Product Description & Application

These are pressure sensitive tapes manufactured from thin and easy to tear paper, co-polymer films with suitable adhesive. This range of products is mainly used in painting to mask the unwanted areas.

- Helps to paint.
- General paint masking
- Holding
- Bundling
- Sealing

Product Grades

Code	Description	Thickness	Adhesive	Temperature
DMT-308-45	Masking Tape	0.14mm +/- 0.02	Solvent Based Natural Rubber	60°C

Application Pictures

Tissue Tape

Product Description & Application

Double sided tissue tape is made of tissue paper both side coated with, hot melt, acrylic emulsion or solvent acrylic based adhesives and laminated with double sided release paper.

- Tissue tape can be used in shoe, leather.
- Used for Folding and Temporary placement.
- Tape for Perfect Fitting Heels on shoes.

Product Grades

Code	Description	Thickness	Adhesive	Temperature
DST-90HM	Double sided Tissue tape	0.060mm +/- 10.0%	Hot Melt	60°C
DST-90S	Double sided tissue tape	0.070mm +/- 5.0%	Solvent Acrylic	120°C
DST-110E	Double sided tissue tape	120.0 micron ± 10.0 micron	Modified Acrylic	150°C

Application Pictures

Eyelet Tape

Product Description & Application

Eyelet tapes are acrylic adhesive base tape processed using non woven cloth.

- Re-enforcement throats, Eyelets, straps & perforations.
- Used as reinforcement to make eye-holes in shoes.

Product Grades

Code	Description	Thickness	Adhesive	Temperature	Others
	Eyelet Tape	0.38mm to 0.6mm	Synthetic adhesive		Black, Brown, Creamy, Grey

Application Pictures

Cotton Reinforcement Tape

Product Description & Application

Cotton cloth coated with adhesive used for joint reinforcement. single sided cotton tapes made of cotton fabric with rubber based adhesive.

- These are mainly used in all leather goods reinforcement.
- Used for lightweight reinforcement back seams, front seams and side seams in shoe industry.
- Helps to improve the tensile strength of leather on shoe.

Product Pictures

Product Grades

Code	Description	Thickness	Adhesive	Temperature	Others
	Cotton Reinforcement Tape	0.246mm-0.290mm	Rubber adhesive		White/Black Tape (With liner and without liner)

Application Pictures

Nylon Tape

Product Description & Application

Nylon tape is made from either black or white nylon cloth. It is coated with natural rubber adhesive or hotmelt adhesive coated on nylon cloth inside to ensure protection against fungal inspection.

- Shoe upper reinforcement to prevent tearing.
- Improving tensile strength of leather.
- To stabilize cut parts and upper edges in the shoe.
- Hand sewn bindings.

Product Grades

Code	Description	Thickness	Adhesive	Temperature	Others
DNT	Nylon Tape	0.11mm to 0.23mm	Hotmelt	90° C	Black/White

Back Seam Tape with Nylon

Product Description & Application

Knitted nylon tapes are mainly used in back seam area and hence they are also called as Seam Tape.

- Knitted fabric coated with adhesive for reinforcement of back seam in shoes .
- High tensile strength.

Product Grades

Code	Description	Thickness	Adhesive	Temperature	Others
	Back Seam Tape	0.32mm	Rubber		White/ black

Woven Top Line Tape

Product Description & Application

Topline Tape is a special nylon/cotton woven blend, high strength tape that is comfortable to throat curves.

- Woven top line fabric used for stronger reinforcements of shoe neck.
- It guarantees good shape, controls elongation.
- It eliminates over-stretching and distortion at throat area.

Product Grades

Code	Description	Thickness	Adhesive	Temperature	Others
	Woven Top Line Tape	0.330mm	Rubber		Black/white

Application Pictures

Top Line Tape

Product Description & Application

Topline Tapes are high-strength to ensure strong and consistent toplines. These tapes controlled elasticity permits easy last removal and absorbs stress in wear.

- Cotton fabric coated with adhesive for reinforcement of topline and stripping.
- Used in Shoe Upper Manufacturing Units as reinforcement for Leather.
- Shape retention, durability & flexibility.

Product Pictures

Product Grades

Code	Description	Thickness	Adhesive	Temperature	Others
	Top Line Tape	0.45mm	Rubber		Nylon/ Cotton

Application Pictures

Synthetic Tape

Product Description & Application

Synthetic Tape is a medium weight synthetic cloth tape, coated with adhesive or treated with polymers.

- Used for general purpose shoe upper reinforcement.

Product Pictures

Product Grades

Code	Description	Thickness	Adhesive	Temperature
	Synthetic Tape	0.19mm	Natural Rubber	70° C
